GOOD OLE DAYS

More Capital Needed To Create New Jobs "If we hope to succeed in creating new jobs for young people during the years just ahead, the county will have to find a great deal of new capital somewhere," Peter F. Drucker writes in the Read-

"This is particularly true of the jobs we will need the most-jobs for the highly educated people who are supposed to work with knowledge rather than with their hands. The greater the skill or knowledge demanded by a job, the greater the capital investment needed to make it possible "For example, a computer operator can't work without computer. A doctor can't function efficiently without a substantial investment in a

nearby hospital...not to mention the costly equipment in his own office. A business ex-

ecutive's job depends on a

going business...and anyone who has ever tried to start even a small enterprise knows how much capital that eats "We cannot hope to get this new capital by drawing on fat in the economy-by reducing excess profits,' as youthful rhetoric sometimes bids us to do. New capital can come from only two sources:

savings and profit.

Let's talk . . . ABOUT OUR TEENS

You have probably made or heard the statement, "You have probably made or heard the statement,
"Teen-agers have certainly changed since the time
I was growing up." On the other hand parents
and adults have changed, in many instances, as much
if not more, than teen-agers have changed. This
is one of the reasons I obtained this series of articles for publication in an effort to communicate
with as many parents as possible. The title of this

Talk About Parents,"

he promises, etc. If the young teen cooperates it might be well to allow him to drive the family car as frequently as it can be spared from regular family use, provided that proper insurance coverag is on the vehicle and the teen is specifically covered by the insurance. Since insurance rates are so high now, some parents make it a requirement that the teen earn the money to pay for he additional cost of covering him on the policy. The idea being to teach him early in life that driving is a privilege and with

Loss of driving privileges for a week or two will often be sufficient to bring your teen back to the right frame of mind about use of a vehicle. However, sometimes longer periods of denial are necessary. It should be understood by your teen, if you must take such action, that loss

None of these guidelines are difficult to follow once the teen forms the habit. We find nothing makes a teen more difficult to correct than a parent showing even the slightest belligerance toward the laws or those enforcing the

We know you will want to cooperate in every way possible to make our streets and highways a place of safety and enjoyment for your youngsters as well as for those of your fellow parents. Use of the Family Car By the Teen
Here's a question that comes to each parent's mind often, how often should a teen be given the privilege of using the family car?" There's no pat answer of course and your decision will probably be based on how reliable you find your teen to be,

Until the teen reaches age 21 he must first of all understand that, while the car is referred to as "his car" the legally registered owner is responsible. Therefore, that person sets the rules which he MUST follow. BUSINESS CONTRACTS

AUBURN UNIVERSITY SCHOOL OF BUSINESS

What is a business contract? Contracts are those agreements which the law will enforce. You have made a contract when you put a dime into a pay techine. When you buy gasoline for your car this is a contract transaction. The signing of a written agreement to buy a home or car is a contract. Contracts are made frequently and have become so much a part of our everyday life that we often fail to realize when they are made or, once made, when they

are performed. However, all agreements are not contracts and are not enforceable by law. be present in order to have an enforceable contract. First there must be an ag-reement. In other words there must be an offer and an aceptance. This first element is sometimes spo-ken of as "a meeting of the minds." The minds of the contracting parties matter of the contract or no true agreement has been

If such a contract is made then it can be voided by the dominated person unless the dominno advantage was taken by In addition, the agreement must be based on consideration. This means

that the promisor must recieve something that will benefit him or the promisee must suffer some kind of detriment. For example, if Mr. Smith agrees to give Mr. Jones one hundred dollars but Mr. Jones doesn't agree to anything then Mr. Smith has received no consideration for his promise assistance of an attorney in drawing up contracts of importance or in

this week "the lesser of the evils"! One of these days Sam Sawyer and I are going to be supporting the same candidate for political office. It may be when he runs for re-election to the Elba City Council. Often we are in favor of different candidates as in the present senate race...Sawyer is working hard for Lambert mims and I am openly planning to vote for Senator Sparkaman. I don't know what it means but at present not a person has told me they probably would run against Sawyer if they ran for the City Council and this is the only incumbent councilman I can make that statement

The prospects for getting a job in this area must be pretty good. . for women anyway. The word we get is that Kleinerts is hiring people left and right and opened a new department this week. Tommy Wise has been advertising in this newspaper for help at the Dairy Queen, either full or part time. If someone really wants to work one or the other of those should fill the bill. Also with Dorsey Trailers enjoying an upsurge in orders they surely will be needing additional employees.

The time is drawing close for all of us voters to make up our minds about who we are going to vote for in the May 2nd primary. So far there has been very little mud slinging in the race (that we heard). However if there is to be any of that type thing, it more often comes in a run-off rather than in the first primary. Let's hope it does not come at all.

A lot of folks have opinions about just who will be the top candidates in all the local races this year but for some reason or another, everyone does not have the same opinion . . . which means the only way we can tell for sure is to watch the vote count come into the courthouse after the election.

If there is any of you who has any sympathy left for your fellow man, please pass some of it to James Ross Poole. Some time ago his wife Kathy got the bug for a Tannescae Walking Horse and convinced her bugster. Ross Poole. Some time ago his wife Kathy got the bug for a Tennessee Walking Horse and convinced her husband buying a horse was the thing to do. Well he had ideas about it being a passing fancy and one of those things a husband must endure for a short time. Well the ole "nag" has won a ribbon at a horse show in Ozark! Junior Jackson was riding him (or her) at the time but it set Mrs. Poole on fire. The next week she rode her horse at the band horse show and I hear she got her horse at the band horse show and I hear she got some kind of ribbon there also. April 8, 1972 While I was Probate Judge of Coffee County, I was closely associated with Fred Donaldson, your Tax Assessor. I know him as a faithful, conscientious, dedicated servant for the people of Coffee County. I wholeheartedly endorse him for re-election. With the new law on ad valorem tax, we need a man with his experience and ability. I encourage my friends in Coffee County to re-elect Fred Donaldson as Tax Assessor.
